| 1. | As a user, I want to check in advance if there are free seats in the library, so I don't waste time if there aren't. |
|----|----------------------------------------------------------------------------------------------------------------------|
| 2. | As a student, I want to search for a library in a specified location, so I can study with no noise.                  |
| 3. | As a student, I want to report library's issues, so I won't have any inconvenience.                                  |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
|    |                                                                                                                      |
